Dear Mr. Minister

I am a twelve year old girl, in grade 6 at Heides Avenue Primary Delft. I have a brother of 7 years old and in grade 1 at the same school.

My brother should have been in grade 2, but of all the changes and moving, he failed gr.1. My mother is on the waiting list since 2001-09-02, My grandmother is also staying with us, she is 65 years old.

We want houses, so that we can go to school and feel free to do what ever we please. At this moment, we are living with my father, his wife and their three children. We feel out of place with them. We want to stay with our mother and grandmother, we need our mommy and a house. My daddy do not want us to stay on the road, he say it is unsafe, we know, but need our mommy. We are staying with them since the 19th February 2008.

We are tired of staying with people, cant take people's nonsense anymore. Do not want to stay in backyards and with people anymore. We stayed at many places already, it is by time, we should have our own house. I am not only talking about us, but all the other children and elderly people <sup>on the road</sup>. Children been raped, abuse and kidnapped etc. Think of us children and elderly people please, pretty please.

Thank you

Yours Sincerely

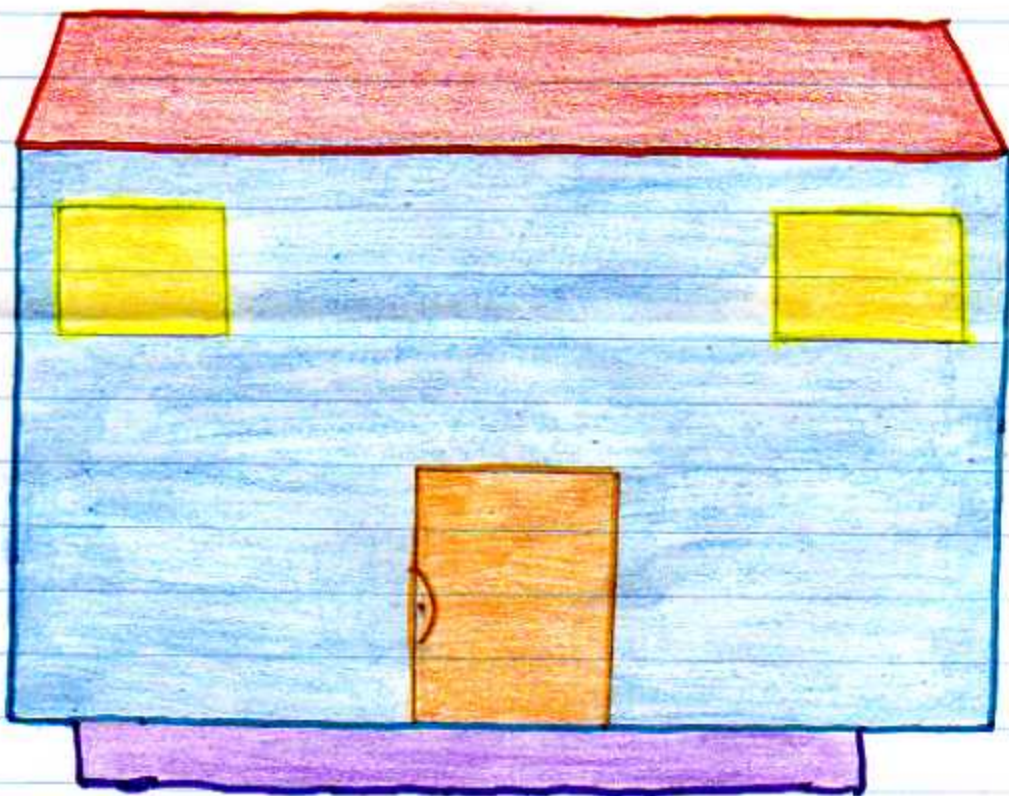

Tashlee-Ann Van Reenen

## Dzar minaster

My mother never had a house of her own and she would like to have a house.

We use to live by other people and it is not nice to live by other people because we can't do whatever we want to do. My mother has 3 children and ~~we~~ we would like to have our own house when my little sister grows she don't want to live like this she wants to live in her own house. So please give us houses there are some people that lives on the streets that don't even have a place to sleep. My mother will be happy to have a place of her own.
